

PRODUCT :

Lipoarabinomannan (LAM) from Mycobacterium tuberculosis Aoyama-B

CODE NUMBER : 02449-61

LOT NUMBER : M2B7068

SOURCE : Mycobacterium tuberculosis Aoyama-B

CONCENTRATION : 1mg/ml

QUANTITY : 1 ml

PRODUCT FORM : Liquid (aqueous solution)

PRESERVATIVE : None

PURIFIED METHOD : Extraction and gel filtration chromatography

PURITY :

SDS-polyacrylamide gel electrophoresis under non-reducing condition renders 1 band (31,000 to 45,000 daltons) when 1 μ g of this product is applied to the gel. (silver stain)

STORAGE :

Product (original package) should be stored at -20°C or lower. Avoid repeated freeze and thaw/ cycles.

CAUTION :

Do not breathe dust. Do not pipet by mouth.

Do not use if skin is cut or scratched.

Use protective clothing, gloves and mask.

Wash thoroughly after handling.

For research use only, not intended for diagnostic or drug use.
