

Apg5/ATG5 Polyclonal Antibody

CATALOG #:	3886-100
AMOUNT:	100 µg
LOT #:	_____
HOST:	Rabbit
IMMUNOGEN:	Synthetic peptide corresponding to residues surrounding amino acid 226 of rat Apg5 (Internal ID# BV-A48)
SPECIES REACTIVITY:	Human, Mouse, Rat, Pig, Bovine
FORMULATION:	100 µg (0.5mg/ml) affinity purified rabbit polyclonal antibody in phosphate-buffered saline (PBS) containing 30% glycerol, 0.5% BSA and 0.01% thimerosal.

STORAGE CONDITIONS:

Store at -20°C. For long term storage, aliquot and freeze at -70°C. Avoid repeated freeze/thaw cycles.

BACKGROUND:

Autophagy, the process of bulk degradation of cellular proteins through an autophagosomal-lysosomal pathway is important for normal growth control and may be defective in tumor cells. It is involved in the preservation of cellular nutrients under starvation conditions as well as the normal turnover of cytosolic components. An ubiquitin like conjugation system is involved in the formation of autophagosome where by Atg12 is covalently bound to Apg5/ATG5. The conjugation is mediated by the ubiquitin-E1-like enzyme Atg7 and E2-like enzyme Atg10.

SPECIFICITY:

The antibody recognizes ~37 kDa Apg5/Atg5 from samples of human, mouse and rat origins. Reactivity to other species has not been tested.

APPLICATION:

The antibody can be used in Western blotting (0.5-4 µg/ml). However, the optimal concentrations should be determined individually. Blocking peptide (3886BP-50) is available separately.

Cat.#: 3886-100

Western blot analysis of Apg5/Atg5 in Jurkat cell lysate.
