

C/EBP- α Polyclonal Antibody

CATALOG #:	3943-200
AMOUNT:	200 μ g
LOT #:	_____
IMMUNOGEN:	Synthetic peptide surrounding amino acid 325 of rat C/EBP- α
INTERNAL ID#:	BV-18G
HOST:	Rabbit
SPECIES REACTIVITY:	Human, Mouse, Rat

FORMULATION:

200 μ g (0.5 mg/ml) affinity purified rabbit anti- C/EBP- α polyclonal antibody in phosphate buffered saline (PBS), pH 7.2, containing 30% glycerol, 0.5% BSA, 5 mM EDTA and 0.01% thimerosal.

STORAGE CONDITIONS:

Store at -20°C. For long term storage, aliquot and freeze at -70°C. Avoid repeated freeze/thaw cycles.

DESCRIPTION:

C/EBP alpha helps regulate terminal adipocyte differentiation by turning on fat-specific genes required for the synthesis, uptake, and storage of long chain fatty acids. Studies have shown that C/EBP delta and C/EBP beta play an early catalytic role in the differentiation pathway, relaying the effects of the hormonal stimulants DEX and MIX in a cascade-like fashion, leading to the activation of the gene encoding C/EBP alpha.

APPLICATION AND USAGE:

The antibody can be used for Western blot analysis (0.5-4 μ g/ml). However, the optimal conditions should be determined individually. Blocking peptide (Cat.# 3943BP-50) is available separately.

Cat. #:3943-200 C/EBP- α Antibody. Western blot analysis of C/EBP- α with Jurkat cell lysate.
