

## 6-Biotin-17-NAD

Catalog #: 4670-500-01 Size: 500 µl

Name: 6-biotin-17-nicotinamide-adenine-dinucleotide

Concentration: 250 µM in water

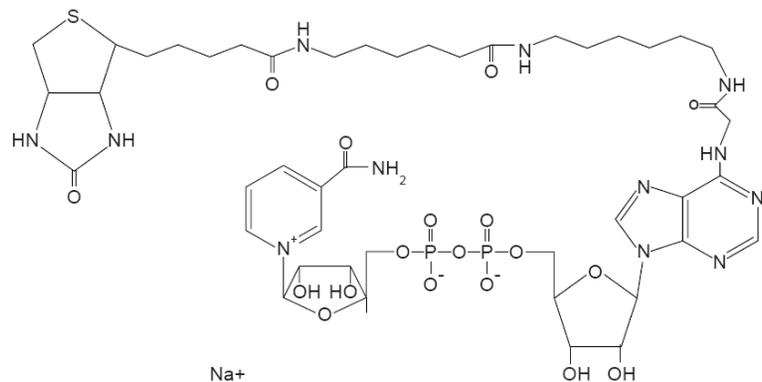

Molecular Weight: 1180.08 g/mole (1158.09 g/mole as a free acid)

Extinction Coefficient: 22,000 at 265 nm

Purity: Greater than 95% by HPLC

Storage Conditions: Store at -80°C. To avoid repeated freeze thaw cycles, prepare aliquots and store at -80°C.

### Structure:

### Related Products Available From Trevigen
