

Monoclonal mouse antibody anti-taq polymerase

Description

Monoclonal antibody anti-taq DNA polymerase from *Thermus aquaticus*. Prevents taq polymerase activity at room temperature

Catalog Number 562

Purity

Murine immunoglobulins IgG 2b (97%). DNA not detectable. RNA not detectable

Format

Lyophilised antibody

Applications and recommended dilutions

Antibody inhibits activity of taq polymerase in ratio of 1 mg of antibody to 2-7 units of taq polymerase. Antibody is inactivated at 7-10 min at 95°C

Storage

Shipping at ambient temperature. Storage 2 years -20°C
RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, DRUG OR
HOUSEHOLD USE
