

Polyclonal Antibody to Hepatitis B Core Antigen / HBcAg - Purified

Alternate names:	HBV Capsid protein, HBV Core protein, p21.5
Catalog No.:	DP017-05
Quantity:	0,5 ml
Host / Isotype:	Rabbit
Immunogen:	HBcAg purified from the lysates of E. coli infected with the viral core DNA
Format:	State: Liquid antiserum containing sodium azide as preservative
Applications:	Immunohistochemistry on formalin/paraffin sections: dilute 1:50-1:150 in an ABC method (30 minutes at room temperature) Recommended positive control: Infected liver. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody reacts in the nuclei of the liver cells of the Hepatitis type B virus infected patients. However, occasional staining may also be seen in the perinuclear cytoplasm of the infected cells.
Storage:	Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Avoid repeated freezing and thawing. Shelf life: one year from despatch.
