

# Transfection Reagents

FOR ANY CELL LINE

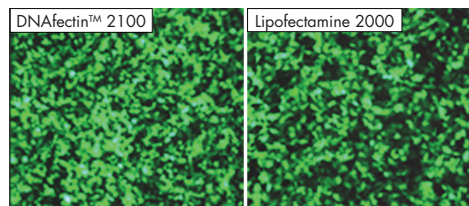

- Affordable
- High Efficiency
- Reliable
- Lowest Toxicity
- Applicable to Any Cell Line

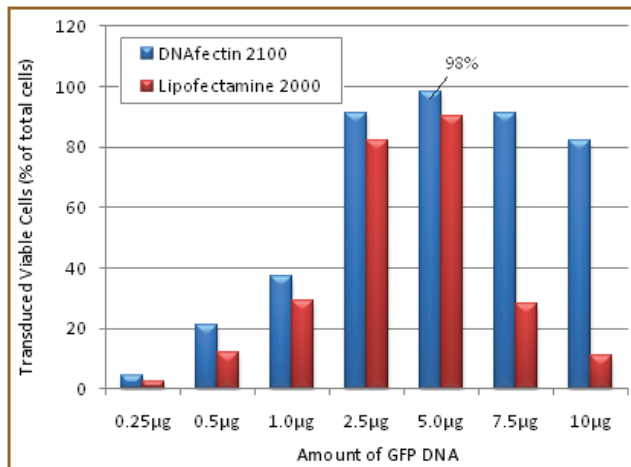

### Transfection of Vero African Green Monkey kidney cells

### Transfection of 293T cells

### Higher Viability of 293 Cells with DNAfectin™ 2100

Transfection efficiency and cell viability of 293 cells transfected with different amounts of GFP plasmid DNA in a 6-well cell culture plate. Results are recorded 48 hours after transfection.

### DNAfectin™ 2100

Cat. No.	Quantity	Price
G2100	1.0ml	\$125.00
