

DATA SHEET

Item #: GHM-80A

Product name : HEMOGLOBIN, Polyclonal anti-Human Affinity Purified

Description:

Purity: Affinity Purified

Storage: 2-4C

Ab Concentration: Typically greater than 1mg/ml

Immunogen: Human Hemoglobin

Host: Goat

Cat. No: GHM-80A

Details:

Polyclonal Antibody Goat anti-human hemoglobin purification: Goats were immunized with human hemoglobin in Freund's adjuvant. After multiple immunizations the goats were bled, serum collected and the anti- human hemoglobin immunoaffinity purified off an antigen containing immunoabsorbant.

Our Polyclonal Antibody Goat anti-human hemoglobin purification forms a single precipitin band with human adult hemoglobin A1, A2, F and S, by immunoelectrophoresis .

Western Blots 1:1,000-1:5,000

ELISA capture: 5 ug/ml

Polyclonal Antibody Goat anti-human hemoglobin BULK QUANTITIES available in 50-500mgs single lot sizes
